

PURSUE TWO DREAMS AT ONCE

Taking the traditional four-year college path isn't for everyone. If it's not your path, maybe the Leadership In Flight Training (LIFT) Academy and Vincennes University (VU) partnership program is. We offer a different option for those who want to blaze a truly unique trail. If exploration and adventure appeal to you, this may be the perfect option.

LIFT and VU students have the opportunity to get their aviation career started quickly and efficiently. Completing their Associate degree at VU and flight ratings at LIFT in two years allows them to start time-building as a Certificated Flight Instructor (CFI) much faster than most. With a preferred pathway to Republic Airways (LIFT's parent company), our graduates can be hired nearly a year sooner than traditional four-year college grads leading to lower flight training costs, faster upgrade times and opportunities to travel the world earlier.

Applications are available year round with options to begin flight training in the fall and spring semesters. Your journey into the world of aviation begins here.

LIFT ACADEMY & VINCENNES UNIVERSITY PARTNERSHIP PROGRAM

LIFT Academy and Vincennes University (VU) have created a joint partnership program that will allow interested students to accomplish two goals simultaneously: earning a college degree and becoming a pilot.

Students will complete flight training at LIFT, while taking classes through VU, earning an Associate degree in Aviation Flight Technology. This program includes training for students to earn their CFI and CFII ratings after completion of the program for no additional cost. Once a CFI, all graduates will have a preferred pilot interview opportunity with Republic Airways.

COURSE SCHEDULE

TOTAL COST: \$84,282*

PRIORITY APPLICATION DEADLINES

Fall Semester
June 15

Spring Semester
November 15
